SUMMARY

Full-stack web developer with strong front-end and back-end skills, building responsive, scalable web applications using MongoDB, Express, ReactJS and Node.js (MERN). Experienced in RESTful API development and end to-end project delivery. Recognized finalist and winner across multiple competitive hackathons.

TECHNICAL SKILLS

Frontend: ReactJS, JavaScript, HTML, CSS, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, RESTful API Development
Databases: Firebase Firestore, MySQL, MongoDB
Languages & Algorithms: C++, Java, Python, C, Data Structures & Algorithms
Tools & Platforms: Git, GitHub, Vercel, Firebase, Render, VS Code
CS Fundamentals: DBMS, OS, Computer Networks, OOP

PROJECTS

- GreenBite – Digital Food Waste Management Platform** | *ReactJS, Node.js, Firebase, Tailwind CSS, Python* 
- Architected and built a full-stack food waste management platform end-to-end, featuring smart food tracking, a simulated NGO donation workflow, and an admin-controlled approval system.
 - Engineered RESTful API endpoints in Node.js/Express.js to power donation and approval workflows, paired with a responsive React + Tailwind CSS frontend and real-time data synchronization using Firebase Firestore.
 - Developed a Python-based admin dashboard to streamline NGO approval workflows, demonstrating cross-language full-stack architecture design.
- Lumina – Inclusive Phonics Learning Platform** | *TypeScript, React, Node.js, Git* 
- Built a full-stack phonics learning platform for children with dyslexia, ADHD, low vision, and hearing impairments, combining evidence-based pedagogy with an accessible, sensory-friendly user experience.
 - Developed TypeScript React components and Node.js API modules with TypeScript codebase, following a structured frontend/backend architecture.
 - Collaborated using Git feature-branch workflows and peer code reviews to deliver production-quality features in a team environment.

EXPERIENCE

- Python and Machine Learning Trainee** *DKTE Society's Yashwantrao Chavan Polytechnic*
Ichalkaranji, India *Jun 2024 – Jul 2024*
- Completed intensive training in Python programming and Machine Learning, implementing regression and classification models using Scikit-learn.
 - Gained hands-on experience in data preprocessing, feature engineering, and model evaluation techniques.

EDUCATION

- D. Y. Patil College of Engineering, Akurdi, Pune** *(Pursuing) 2025 – 2028*
B.Tech in Computer Engineering (SY, Sem 4) *CGPA: 8.82*
- DKTE's Yashwantrao Chavan Polytechnic, Ichalkaranji** *2022 – 2025*
Diploma in Computer Science and Engineering *Aggregate: 93.66%*

ACHIEVEMENTS

- 2nd Place – Enigma 4.0 Hackathon**, VIT, Pune
- Finalist (Top 10) – TechSprint Hackathon**, GDGC, DYPCOE Akurdi, Pune
- Finalist – Xenia Hackathon**, PICT, Pune
- Finalist – Innovation Challenge 2026**, JSPM, Pune

CERTIFICATES

- Practical Cybersecurity for Cybersecurity Practitioners** – NPTEL **Gold Medal**
- Cloud Computing and Distributed Systems** – NPTEL **Silver Medal**
- Git and GitHub** – Geekster
